## Dimensions
- Product dimensions (W x H x D): 300 x 1022 x 300 mm
- Packaging dimensions (W x H x D): 346 x 1122 x 350 mm

# Highlights

## LivingSound

Philips' patent-pending LivingSound vastly expands the sweet spot (the ideal listening location in your room) so you can enjoy truly immersive music over a wider area. Combining various sound processes, LivingSound recovers the richness and spatial details of the soundstage that are often lost with a compact stereo system. The effect is a larger than expected sweet spot - one that is extensively and evenly distributed around the room. Now your music enjoyment is not confined to the traditionally narrow area anymore. Enjoy optimum stereo sound in a wider area.

## Patented rotating dock
Patented rotating dock for easy navigation with album art.

## Play and charge iPhone/iPod

Enjoy your favorite MP3 music while charging your iPhone/iPod! The dock lets you connect your portable device directly to the Docking entertainment system so you can listen to your favorite music in superb sound. It also charges your iPhone/iPod while it plays so you can enjoy your music and not have to worry about your portable player battery running out. Use the remote control to navigate, select and playback the music stored on your iPhone/iPod. The Docking entertainment system automatically charges your portable device while it is docked.

## PureDigital

PureDigital delivers unsurpassed sound clarity.
